

AECOM El Estero FOG Change Order Proposal

Scope of Services – El Estero WWTF FOG Pilot Project – Construction Phase Engineering Support

Our Scope of Work for Construction Phase Services is limited to the specific support tasks noted below, provided on a time and materials basis as directed by the City and according to the attached standard fee schedule. We have assumed that the City will be responsible for the overall management of the construction phase of the project. We have therefore not included comprehensive construction management as part of our scope. If unforeseen site conditions or quality concerns arise as construction proceeds, AECOM can perform additional support and site visits on an as-needed basis to assist with resolving issues and developing solutions in the field. Our fee for these services will not exceed \$14,027 without prior written approval from the City.

TASK 1.0 CONSTRUCTION PHASE ENGINEERING SUPPORT

1.1 Pre-Construction Conference and Job Walk

AECOM will attend a pre construction conference with the City and Contractor's team as they prepare to mobilize for the Project. As part of this effort AECOM will review the plans and specifications with the Contractor to facilitate the Contractor's understanding of the Project.

1.2 Submittal Review & Requests for Information (RFIs)

AECOM will review up to nine (9) submittals at the owner's direction for conformance with specifications. AECOM will provide these services on a time and materials basis at the direction of the City. During the construction phase, AECOM will respond to up to four (4) RFIs. We have assumed that the City's representative will receive and manage the incoming submittal and RFIs from the contractor.

1.3 Construction Phase Support

During the construction phase, AECOM will be onsite for four hours during the first day of field work, for four hours during one progress visit during construction, and for four hours for one final visit to evaluate the near completed facilities to evaluate general compliance and/or identify discrepancies and deficiencies in the work performed by the Contractor. The Contractor has sole responsibility for compliance with safety requirements.

1.4 As-Built Drawings

AECOM will review the project as-built drawings produced by the Contractor and confirm that drawings reflect the current project conditions and prepare one set of electronic record drawings.

AECOM
FEE SCHEDULE FOR PROFESSIONAL SERVICES
Effective January 1, 2011
