PHOTO AND FILM SHOOTS

The City of Santa Barbara offers one stop photo and film/video permitting with Parks and Recreation as the lead department accepting applications, collecting fees, issuing the permits and coordinating as many internal logistics among City departments such as Police, Fire, Public Works and Waterfront as possible for administrative convenience.

Fees for photo and film/video shoots include both permit and “facility use” fees. Permit fees apply to all photo and film/video shoots. If you plan to shoot in a City park, beach, Stearns Wharf or the Harbor, a facility use fee is charged in addition to the permit fee. Fee rates depend on the location where photography or filming occurs. See the applicable Facility Use Fee charts below.

In situations where City personnel may be required to be present during the shoot, a fee for staff will be charged. See the Staff and Miscellaneous section below for further information.

Although specific uses may vary slightly within a designated category, the description is intended to provide a guide for categorizing shoots properly. The Parks and Recreation Director reserves the right to determine fees outside of the following chart for certain shoots, characterized by the unique or untypical location, scope, size or duration of the shoot, and/or impact to public parkland as a result of the use.

OUTDOOR RENTAL FACILITIES

Categories:

The City of Santa Barbara provides the opportunity for public and private use of City parks and parkland. Uses such as picnics, wedding ceremonies and private gatherings, sporting events or large community special events are categorized and fees are determined by the size, scope and duration of the event (except for group picnic sites, which are based on the site's area capacity.) Following are the categories and fee levels describe in the Outdoor Rental Facilities fee table.

Picnics P1 to P4	Based on group picnic area capacity
Private Gatherings PG1 to PG4	Corporate or individual private events. Limited to 10 hours, with a fee for extra hours beyond 10.
Wedding Ceremonies W1 to W3	Ceremonies limited to 4 hours. Can include locations other than designated reservable areas.
Sporting Events SE1 to SE6	Runs, walks, sporting tournaments, etc.
Public Events PE1 to PE6	Any event open to the public

Set Up and Break Down Days:

For larger outdoor events with extensive set up including canopies, stage, etc., set up and break down days will be assessed at 35% of the daily reservation fee per day or any part of

one day. Dumpsters and portable toilets are exempt from the break down day charge if they are removed by 9am the following day.

Utility Hook Ups for De La Guerra Plaza, Mackenzie Park and Leadbetter Beach

Events:

For De La Guerra Plaza and Mackenzie Park, gas, water and electrical hook ups may be made available for large public events. The activation of these utilities can either be accomplished through a licensed general contractor (or a licensed plumbing and licensed electrical contractor), or the Parks and Recreation Department can facilitate the hook-up requests through the Public Works Department. If the former is chosen, the Public Works Department will charge fees to supervise and inspect the work before and after the activation and require that a permit be obtained from the Building and Safety Department. A \$100-\$500 deposit is required to cover the estimated usage of the utilities with the amount is based on the number of utility boxes activated. Additional information on the fees and how to obtain the permit will be provided.

If the latter is chosen, approval is dependent upon Public Works' ability to schedule the necessary personnel to complete the required work for the event within the given timeframe. Requests must be submitted a minimum of four weeks in advance of the event. The base cost to activate/deactivate the plumbing is \$540 for the first box, plus \$90 per additional box. The base cost to activate/deactivate the electricity is \$135 for the first box and plus \$90 per additional box. A deposit of up to \$1,000 is also required to cover the estimated usage of the utilities.

For Leadbetter Beach, only water and electrical hook ups are available and the activation of these utilities is handled by park monitors, along with the reading of the water and/or electrical meters prior to and after the usage. Water usage is charged at \$10 per unit of water and electricity usage is charged at \$5 per kilowatt hour or \$5 minimum. A deposit of up to \$100 is required to cover the estimated usage of the utilities.

Vehicles in Park or Beach Areas Related to Permitted Events:

The use of vehicles in parks and beaches is strictly controlled and restricted to authorized uses only. Unauthorized driving or parking of vehicles in park or beach areas related to permitted events will be cited and fined \$50 per vehicle.

WATER RATES AND FEES

Chapter 14.08 of the Santa Barbara Municipal Code authorizes the City Council to set fees for water meters and water service;

Section 14.12.010 of the Santa Barbara Municipal Code authorizes the City Council to set the rate for City water for private fire services when the use of a meter is not required; and

The City does currently and wishes to continue to have in effect a water rate structure that reflects an adequate supply of water and promotes the efficient use of such water by its customers.

DEFINITIONS

Wherever used in this resolution the following quoted words shall have the meanings set forth below:

- A. "Account holder" means the person or entity responsible for payment for water service at a particular property, as shown in the City's water billing records.
- B. "Base allotment" means the average monthly consumption on record with the City for the most recent complete off-peak period, or such other level of consumption determined by the Director to represent the average monthly off-peak water usage by a particular customer. 1. WATER SERVICE RATES

The following provisions shall govern all fees related to water service for metered connections to the City water system:

- A. **MONTHLY SERVICE CHARGE.** A monthly service charge shall be collected for

all connections, without regard to actual water use, if any, as follows:

<u>Size of Water Service Meter</u>	<u>Rate (\$/meter/month)</u>
5/8"	\$14.22
3/4"	\$20.23
1"	\$32.23

4"	\$380.32
6"	\$782.43
8"	\$1,442.60
10"	\$2,282.82

Monthly service charges for connections located outside the City limits shall be 130% of the above charges.

B. **USER CLASSIFICATIONS.** For the purposes of assessing metered water charges provided for in Subsection C below, user classifications shall be determined and corrected by Staff, using the following categories:

1. Residential Single Family Detached: Applicable to all meters serving one detached dwelling unit.
2. Multifamily 1-4 Units: Applicable to all meters serving two or more detached dwelling units and all meters serving 1, 2, 3, or 4 attached dwelling units.
3. Multifamily Over 4 Units: Applicable to all meters serving five or more dwelling units, any of which are attached.

All meters under this classification shall be subject to interruption upon declaration of a Stage Three Drought Condition. There shall be no connection between a meter served under this classification and any dwelling or commercial or industrial structure.

- a. Irrigation-Agriculture: Applicable only to Potable Irrigation meters that serve bona fide commercial agricultural enterprises, including nurseries. A bona fide commercial agricultural enterprise is one that grows and sells one or more type of agricultural or horticultural products, for the purpose of producing income from the sale of these products. The amount of water made available in the first tier of metered water usage under this sub-classification shall be based solely on the square footage of the commercial crop area that is planted and irrigated as part of the enterprise. As a condition of the right to receive Irrigation-Agriculture service, the Director may require an Account holder to submit to the Director any documentary or other evidence necessary to establish to a reasonable degree of certainty that the property served by the meter is being used to conduct a bona fide commercial agricultural enterprise as defined above. Such evidence may include tax returns, bills of sale, or similar documents.
 - b. Irrigation - Recreation: Applicable only to Potable Irrigation meters that serve areas used primarily for passive or active recreational purposes, including parks, playgrounds, golf courses, school yards, and publicly owned open spaces and landscaped areas. The amount of water made available in the first tier of metered water usage under this sub-classification shall be based solely on the square footage of the irrigated area served by the meter.
 - c. Irrigation- Urban (Residential / Commercial): Applicable to Potable Irrigation meters serving properties that are primarily residential in use or are zoned for residential use or commercial, industrial, or institutional in use. The amount of water made available in the first tier of metered water usage under this subclassification shall be based on the square footage of the irrigated area served by the meter.
7. Recycled Water: Applicable to all meters providing recycled wastewater.
 8. State Institutional: Applicable to customers that are State agencies located in the unincorporated area of the County of Santa Barbara
 9. Unincorporated Areas: Applicable to all meters serving properties that are not state agencies and are located in the unincorporated area of the County of Santa Barbara.
- C. **METERED WATER CHARGE.** In addition to all other charges imposed by Chapter 14.08 of the Santa Barbara Municipal Code, including but not limited to the monthly service charges set forth in Subsection I.A. above, water use shall be charged according to the following block rates for those user classifications

defined in Subsection B above. Usage shall be measured in units of 100 cubic feet (HCF).

Usage Quantities (Monthly, except as specified)	Rate (\$/HCF)
1. <u>Residential Single Family</u>

Up to 100% of base allotment:	\$5.32
All other use:	\$11.61

6. Irrigation - Potable:
 The first tier of all irrigation accounts shall be calculated using the following formula:

$$\text{Monthly Water Budget} = (ET_o)(.62/748)((PF \times HA)/IE)$$

Where

- ET_o = Reference evapotranspiration (weather factor)
- $0.62/748$ = Conversion factor (inches to HCF)
- PF = Plant factor
- HA = Square footage of irrigated area(s)

- IE = Irrigation efficiency (80%)

The Monthly Water Budget shall be determined using real-time monthly ET_o data from a local weather station, plant factors that relate plant type water use needs to the ET_o , and irrigated area by plant type. Irrigation system efficiency is set at a constant value of 80% for all account types.

Monthly Water Budgets shall be based on irrigated area only. Accounts shall be subject to mandatory ground-truthing measurement at Staff discretion to verify measurement accuracy of irrigated areas and plant types. If ground-truthing measurements are not completed within 2 months after initial contact due to lack of customer response, service may be subject to suspension until irrigated landscaped areas are verified in the field.

a. Irrigation - Agriculture

All Use within Monthly Budget	\$1.56
All other use	\$13.44

HA_c = total crop irrigated area (square feet)
 PF_c = 75%

b. Irrigation - Recreation

All Use within Monthly Budget	\$2.79
All other use	\$13.44

HA_t = total irrigated turf area (square feet)
 Turf PF_t = 80%
 HA_s = total irrigated shrub area (square feet)
 Shrub PF_s = 30%

Bird Refuge

Upon finding that there are adequate water resources available to allow such use, the Director may also authorize the sale of up to a total of 21,780 HCF (50 acre feet) per year at the first block recreation rate for use in refilling the Andre Clark Bird Refuge.

c. Irrigation - Urban (Residential/Commercial)

All Use within Monthly Budget	\$6.39
All other use	\$13.44

HA_t = total irrigated turf area (square feet)

For Residential Irrigation, HA_t cannot exceed 20% of total irrigated area. If measurements are greater than 20%, the remainder square footage will be assigned to the HA_s .

PF_t = turf plant factor = 80%

HA_s = total irrigated shrub area (square feet)

For Commercial Irrigation, 100% of total irrigated area is considered HA_s , unless a permitted exception of Landscape Design Standards has been approved.

PF_s = shrub plant factor = 30%

Plant Factor percentage allotments reflect the requirements of the City's Landscape Design Standards for Water Conservation per SBMC 22.80.

7. Recycled Water

All HCF \$2.24

8. State Institutional

Up to 100% of base allotment: \$5.32

All other use: \$11.61

9. Unincorporated Area. Metered water charges for service to properties located in unincorporated Santa Barbara County shall be 130% of any corresponding in-City rate.

D. FAILURE TO CONNECT TO RECYCLED WATER SYSTEM. Where the Director has determined that use of recycled water is feasible at and on a particular property and has notified the account holder for the meter serving such property of this fact, and thereafter the user has failed to substitute recycled water use for potable water use, the charge for provision of potable water use shall be double the otherwise applicable charge for metered water.

E. GRANTING OF ADJUSTMENTS TO EXTRAORDINARY WATER CHARGES. Upon an account holder's application that is 1) received within 45 days of a relevant billing date, 2) submitted on a form provided by the Finance Director, and 3) supported by detailed written documentation, the Finance Director, or a designee of the Finance Director, shall have the authority to make adjustments to extraordinary water charges in the event of hidden leaks, undetected line breaks, or other circumstances that are demonstrated to be beyond the reasonable control of the account holder. Such adjustments shall be made in accordance with guidelines approved by the City Administrator's Office. However, such

adjustments shall in no case result in a cost per HCF that is less than the lowest unit rate for residential customers located within the City limits. The decision of the Finance Director, or said designee, regarding any such adjustment shall be final. Adjustments shall be allowed under this section only once per account, per account holder in any five year period.

F. MISCELLANEOUS SERVICES. The following miscellaneous fees related to water service shall be charged and collected upon demand:

Service Initiation Fee:	\$47
Service Restoration Fee:	\$64

I. CHANGE OF ACCOUNT HOLDER UPON TERMINATION OF TENANCY.

Upon termination of utility service by an account holder who is a tenant, the property owner, or agent thereof, shall automatically become the account holder, provided that the City has on file a written request from such property owner or agent authorizing such change. In the event that the account holder is transferred to a new account holder willing to take responsibility for all charges

incurred after the most current bill, the Administrative Transfer Fee shall apply in lieu of the Service Initiation Fee.

- J. MULTI-FAMILY RESIDENTIAL - SPECIAL OCCUPANCY BILLING. The Director may waive individual metering requirements for dwelling units in publicly owned housing developments having special occupancy characteristics as may be determined appropriate by the Director. Such waiver shall be accompanied by water use efficiency conditions determined to achieve the maximum feasible conservation at the site, including but not limited to City metering of individual portions of the project in a manner designed to highlight occurrences of unusually high water use. Such accounts shall be allotted 2 HCF of water per dwelling unit at the first block rate for other Multi-Family Residential customers, with all other usage charged at the third block Multi-Family Residential rate.

2. NON-METERED PRIVATE FIRE SERVICES

3. WATER SERVICE CONNECTIONS

All determinations of the size and location of water service connections, water main connections, and meters shall be subject to the approval of the Director. All water service connections must be installed per City standard details. If not, the customer shall be charged at a time and materials basis for the service to be brought up to City standards. The Director may waive the fee for a service connection or main connection to the recycled water system upon a finding that such connection will promote the efficient and beneficial use of recycled water and will displace existing usage of the City's potable water supply. Fees related to water service connection to the City water

system are as follows and are in addition to buy-in fees established by the City Council in separate resolutions:

K. RETAIL WATER SERVICE CONNECTIONS

WATER AND SEWER BUY-IN FEES

Sections 14.08.050 and 14.48.010 of the Municipal Code authorize the establishment by resolution of fees to be paid for connections to the City water and sewer systems, respectively; and water and sewer buy-in fees are appropriately assessed on the basis of the flow capacity of the meter serving a given use.

The City Council, upon recommendation of the Water Commission, has determined the appropriate charges to be assessed for new connections to the City water and sewer systems for the purpose of buying into the existing assets of those systems.

1. BUY-IN RATES

Except as provided herein, the following water and sewer buy-in fees shall be collected prior to the Public Works Director's approval to: 1) make a new connection to the City water or sewer system, 2) to commence a discharge into the City sewer system from a newly permitted dwelling unit, or 3) increase the size of an existing water meter. Such buy-in fees shall be in addition to fees assessed under other resolutions for the labor, materials, equipment, and other City costs necessary to construct the actual connection to the water or sewer system. Buy-in fees specified herein continue to be effective for fees paid July 1, 2013 or later.

2. REGULATIONS REGARDING ASSESSMENT OF BUY-IN FEES

The following regulations shall apply to the assessment of water and sewer buy-in fees:

- A. The term “multi-family residential dwelling unit” as used herein shall mean any attached dwelling unit, including attached apartments, condominiums, and secondary dwelling units.
- B. Water and sewer buy-in fees shall not apply to:
 - 1. Connections to serve facilities owned and operated by City programs funded by the General Fund; and
 - 2. Water system connections for public fire hydrants, private fire hydrants, and private fire lines.
 - 3. Common area meters to serve irrigation, laundry or other shared uses on multi-family residential properties.
- C. A sewer buy-in fee shall not apply to a water meter that is classified as “Irrigation” in the City billing system.
- D. Water and sewer buy-in fees shall not apply to a connection to the City’s recycled water distribution system when the connection offsets existing potable water capacity.
- E. In the case of an application for a water or sewer connection to serve a parcel where connections already exist, credit shall be given for existing connections such that the water and sewer buy-in fees shall be based on the net increase in meter capacity for non-residential meters, or in the case of residential meters, the net increase in number of dwelling units. The credit shall only be valid when the existing connections are abandoned within six months of the

installation of new services. There shall be no buy-in fee assessed for the installation of a meter to serve a legally existing residential dwelling unit that is already served by another City water meter when such installation is done for the purpose of providing separate metering to such dwelling unit.

- F. A reduction in meter size may be approved by the Public Works Director in accordance with applicable resolutions; however, there shall be no refund of buy-in fees upon such reduction.
- G. When a customer voluntarily downsizes a meter, the original meter capacity will be reserved for the service connection for 12 months. If, before 12 months has elapsed from the time of the smaller meter being installed, the customer requests the original meter size to be re-installed at the same service connection, no buy-in fee shall apply. If more than 12 months has elapsed, the customer will be charged the difference in buy-in between the meter size currently installed and the size of the meter to be installed.
- H. In a case where the buy-in fee cannot be reasonably determined using the meter capacity method contained herein, a water and/or sewer buy-in fee may be determined by estimating the net new usage of water, converting such usage to an equivalent number of 5/8" meters, and multiplying said equivalent number times the buy-in fee for a 5/8" meter.

3. REGULATIONS REGARDING RESERVED CAPACITY FEE FOR INACTIVE ACCOUNTS

- A. As system capacity is being reserved for inactive accounts even when services are not in use, service connections that have are inactive for more than 6 months and are subject to reserved capacity fees before service can be reinstated. Fees shall be assessed via the following formulas:

WATER

Current Monthly Meter Fee multiplied by the number of months the account was out of service

SEWER

Fixed Wastewater Charge multiplied by the of months the account was out of service

The monthly meter fee shall be based on the meter size at the time of account termination.

If the above calculation exceeds the current buy-in fee for the meter size in question, the cost is capped at the current buy-in amount.

- B. Services that are inactive due to catastrophic circumstances, such as fire or other natural disasters, may apply for a waiver of reserved capacity, subject to approval by the Public Works Director.

B. SLIP WAITING LISTS FEES

1. Master Waiting List Renewal Fee. An annual non-refundable renewal fee of \$40 shall be paid by each applicant on the Master Waiting List prior to the first day of November each year. Payment of said fee is required to remain on the Master Waiting List. Failure to timely pay the annual Master Waiting

List Renewal Fee shall cause removal of the applicant's name from the Master Waiting List.

2. Lottery List Fees

- a. Lottery List Placement Fee. Each applicant selected for placement on the Lottery List shall pay a non-refundable Lottery List Placement Fee of \$50. Failure to pay the fee shall cause the applicant's name to not be placed on the Lottery List.
- b. Lottery List Renewal Fee. An annual non-refundable Lottery List Renewal Fee of \$40 shall be paid by all applicants on the Lottery List prior to the first day of November each year. Failure to timely pay the annual Lottery List Renewal Fee shall cause removal of the applicant's name from the List.

The slip assignment shall then be offered to the applicant ranked next on the Lottery List.

C. VISITING OR TRANSIENT VESSEL FEES

Visiting berths, slips and moorings are intended to accommodate boats en route to and from their home port. There shall be a charge for visiting boats not having a regularly assigned slip, end tie, or designated mooring space subject to monthly charges as provided in this resolution. Except as specially designated in Section 5 below, or expressly allowed by the Waterfront Director, visitor berths are assigned on a first-come, first-served basis upon the vessel's arrival at the harbor.

1. The base visiting rate for vessels other than those actively and solely engaged in commercial fishing will be \$.90 per linear overall foot per day for the first 14 cumulative days in the Harbor.
2. Vessels described in C.1 that remain in the Harbor for a period of more than 14 cumulative days will be required to pay two times the base rate. A new 14 day cumulative period at the base rate shall start to run if the vessel returns after being absent from the harbor for 5 or more consecutive days. The Harbormaster may, however, waive such increase in the rate for a period in excess of the 14 cumulative day period in the event of prolonged storms, natural disaster, or on satisfactory proof of a need for additional time to effect emergency repairs.

3. The base visiting rate for commercial fishing vessels actively and solely engaged in commercial fishing shall be \$.70 per day. No days out will be required to remain at the base rate when proof in advance of slip assignment in the form of two California Department of Fish and Wildlife commercial fish landing receipts every two weeks is shown. If such proof is not provided, the vessel will be considered not actively fishing and will be subject to fees described in C.1 and C.2.
4. The maximum allowable stay for visiting boats other than actively fishing commercial vessels is 28 cumulative days. A vessel must vacate the Harbor for 5 or more consecutive days before again being eligible for visitor boat status. Any person violating this provision, without express permission of the Waterfront Director or his designee, shall pay a penalty of:
 - a. \$75 per day for days exceeding the maximum allowable stay, for a vessel whose overall length is 35 feet or less.

 - iv. Slip reservations must be confirmed and paid in full at least one week prior to reservation date.
 - v. Cancellation after full fees have been paid will result in credit for a future visit commensurate with number of days cancelled. All rules outlined in 5.a.i through 5.a.iv above shall apply to the future visit, if it requires a reservation.
 - b. Group reservations for Yacht Club-sponsored cruises and races.
 - i. A group reservation may be made for no fewer than six vessels, a minimum of 30 days in advance.
 - ii. Berthing fees will be based on standard visitor-boat rates and must be paid in full by the group's chairperson at least two weeks prior to reservation date.
