Discussion held.

Commission comments:

1. The Commission thanks the participants of the ad hoc subcommittee for their work, particularly Planning Commissioner Sheila Lodge.
2. The timing and momentum of the subcommittee's work is important; the Architectural Board of Review should be included, but after the formulation of HLC guidelines.
3. The Commission supports the preparation of infill design guidelines in the short-term and redrawing the AUD Map to ensure protection of historic resources in the long-term.
4. The Commission agrees that the ad hoc subcommittee has done good work so far and should continue to work on the following:
 - a. Infill design guidelines should address projects that block the views and sunlight of adjacent buildings.
 - b. Respecting adjoining neighborhood development patterns should be emphasized in the guidelines.
 - c. Sensitivity to historic resources outside of El Pueblo Viejo needs more emphasis.
 - d. Proposal to redraw the AUD Map.
 - e. Better integration of AUD projects into neighborhood character is essential.
5. The Commission requested the following revisions to project submittal requirements:
 - a. Identify the characteristics of a "livable" unit.
 - b. Consider a requirement for applicants to identify important views from significant portions of the City.
 - c. Applicants should provide 3-D modeling from aerial and pedestrian views.
6. The Commission had the following comments on the AUD Program in general:
 - a. If affordability is a goal of the program, there should be tools to ensure it.
 - b. Show goals and current status of meeting those goals.
7. The Commission should more actively utilize all available review tools, especially when the project appears incompatible.
8. Make sure applicants understand compatibility, perhaps by providing them with visual representations.

E-3/SD-2 Zone

(2:50)

Assessor's Parcel Number: 053-272-004

 Owner: Mark & Maren Johnston
 Applicant: Dale Pekarek

(Proposal for 60 square feet of additions to an existing 1,218 square foot, one-story, single-family residence with a 324 square foot detached two-car garage. Proposed alterations include the relocation of an existing fireplace and chimney from the east elevation to the south elevation, a new oriel bay window and roof form at the east elevation, enclosure of a covered side porch off of the dining room, a new roof over a raised entry porch, and replacement of existing windows. The project includes a remodel and reconfiguration of interior spaces. The proposed total of 1,602 square feet on a 6,920 square foot lot is 53% of the maximum allowed floor-to-lot area ratio [FAR]. This project will address a violation identified in Zoning Information Report #18732.)

(Action may be taken if sufficient information is provided. Project requires Neighborhood Preservation Ordinance findings.)

Actual time: 2:55 p.m.

Present: Dale Pekarek, Applicant

Public comment opened at 3:04 p.m.

Kellam de Forest stated that the relocation of the chimney would be a major alteration and would change the historic integrity of the house and the streetscape.

Public comment closed at 3:05 p.m.

Straw vote: How many Commissioners would like the chimney to remain on the east elevation in some form? 8/1 Passed

Motion: Continued two weeks with comments:

1. Study alternatives to moving the chimney to the south elevation, perhaps shifting it within the east elevation or rebuilding it in its existing location to meet current seismic standards and to retain the historic integrity of the building.
2. The chimney cap should be reused or re-created.
3. Retain all existing dormers.
4. The corbels on the new bay window should emulate the existing corbel end cuts, or should be eliminated, bringing the bay to the ground.
5. The new bay window should emulate the existing bay window, replicating the shed roof.
6. Mullions in windows need revision to be more consistent with English Vernacular style and the existing original windows.

7. The existing porch is exquisite and should not be modified.
8. Archival photos should be required and filed with the appropriate entity.
9. Drawings should show existing and proposed elevations side by side.
10. The Commission can support the south elevation porch infill.
11. The Commission appreciates the effort in replacing the non-original windows that are not historically appropriate for the building.

Action: Mahan/Orías, 9/0/0. Motion carried.
