

Relevant General Plan Policies

Housing Element

H11. Promote Affordable Units. The production of affordable housing units shall be the highest priority and the City will encourage all opportunities to construct new housing units that are affordable to extremely low, very low, low, moderate and middle income owners and renters.

Possible Implementation Actions to be Considered

H11.1 Affordable and Workforce Housing. Explore options to promote affordable and workforce housing, including revising the variable density ordinance provisions to increase affordable housing (e.g., limit unit size), requiring a term of affordability, and reducing parking standards with tenant restrictions.

H11.2 Priority Housing Overlay. Encourage the construction of rental housing, employer sponsored housing, and co-operative housing in the Downtown, La Cumbre Plaza/Five Points area, C-M Commercial Manufacturing Zone and Milpas Street area by providing incentives such as:

- Increased density overlays up to 63 du/ac as part of the Average Unit-Size Density Incentive Program.
- Higher Floor Area Ratios (FAR) when such standards are developed.
- More flexibility with zoning standards, (e.g., reduced parking standards).
- Expedited Design Review process.
- Fee waivers or deferrals.

H12. Above Moderate Affordable Housing. Provide incentives for the private sector development of new housing opportunities affordable to households earning more than 120% of the Area Median Income, but not more than 200% of the Area Median Income.

H13. Non-Subsidized Rental Housing. Preserve and promote non-subsidized affordable rental housing.

H16. Expedite Development Review Process. Assist affordable housing sponsors to produce affordable housing by reducing the time and cost associated with the development review process while maintaining the City's commitment to high quality planning, environmental protection and urban design.

Possible Implementation Actions to be Considered

H16.4 Coordinated Project Review. Address issues of coordination between the Architectural Board of Review (ABR), the Historic Landmarks Commission (HLC), the Staff Hearing Officer (SHO) and the Planning Commission (PC). Identify areas where additional staff authority could be given for administrative approvals.

Land Use Element

LG6. Location of Residential Growth. Encourage new residential units in multi-family and commercial areas of the City with the highest densities to be located in the Downtown, La Cumbre Plaza/Five Points area and along Milpas Street.

Possible Implementation Actions to be Considered

LG6.1 Average Unit-Size Density Incentive Program. Amend the Zoning Ordinance to incorporate an Average Unit-Size Density Incentive Program in multi-family and commercial zones based on smaller unit sizes and higher densities adjacent to transit and commercial uses and to implement Housing Element policies for higher densities for affordable and/or Community Benefit projects.

LG6.2 Average Unit Density Components. The program developed under LG6.1 shall be in effect for 8 years from implementing ordinance adoption or once 250 units have been developed in the High Density areas, whichever occurs sooner. The program will include the following components:

- a. The 250 unit limitation shall apply to projects developed in the High Density and/or Priority Housing Overlay;
- b. All units within a project developed at either the High Density or Priority Housing Overlay will be included in the 250 unit maximum;
- c. The minimum parking requirement for projects using the Average Unit-Size Density Incentive Program is 1 space per unit; and
- d. A report to Council will be made to analyze the effectiveness of the program as part of the Adaptive Management Program for the General Plan, and as the trial period is approaching its end, the Council will consider whether to extend or modify the program. In absence of Council review before the trial period expires, the allowed residential density will default to the Variable Density standards allowed under SBMC 28.21.080. F as it existed in 2011.

LG6.3 Priority Housing Overlay. Encourage the construction of rental and employer housing and limited equity co-operatives in select multi-family and commercial zones where residential use is allowed by providing increased density (over Average Unit-Size Density Incentive Program).
