PHOTO AND FILM SHOOTS

The City of Santa Barbara offers one stop photo and film/video permitting with Parks and Recreation as the lead department accepting applications, collecting fees, issuing the permits and coordinating as many internal logistics among City departments such as Police, Fire, Public Works and Waterfront as possible for administrative convenience.

Fees for photo and film/video shoots include both permit and “facility use” fees. Permit fees apply to all photo and film/video shoots. If you plan to shoot in a City park, beach, Stearns Wharf or the Harbor, a facility use fee is charged in addition to the permit fee. Fee rates depend on the location where photography or filming occurs. See the applicable Facility Use Fee charts below.

In situations where City personnel may be required to be present during the shoot, a fee for staff will be charged. See the Staff and Miscellaneous section below for further information.

All permits must be accompanied with proof of comprehensive general liability insurance, listing the City of Santa Barbara, its officers, employees and agents as additional insured. Minimum limits are \$1M combined single-limit bodily injury and property damage for each occurrence.

Although specific uses may vary slightly within a designated category, the description is intended to provide a guide for categorizing shoots properly. The Parks and Recreation Director reserves the right to determine fees outside of the following chart for certain shoots, characterized by the unique or untypical location, scope, size or duration of the shoot, and/or impact to public parkland as a result of the use.

The City of Santa Barbara provides the opportunity for public and private use of City parks and parkland. Uses such as picnics, wedding ceremonies and private gatherings, sporting events or large community special events are categorized and fees are determined by the size, scope and duration of the event (except for group picnic sites, which are based on the site's area capacity.) Following are the categories and fee levels describe in the Outdoor Rental Facilities fee table.

Picnics P1 to P4	Based on group picnic area capacity
Private Gatherings PG1 to PG4	Corporate or individual private events
Wedding Ceremonies W1 to W3	Ceremonies limited to 4 hours. Can include locations other than designated reservable areas.
Sporting Events SE1 to SE6	Runs, walks, sporting tournaments, etc.
Public Events PE1 to PE6	Any event open to the public

Set Up and Break Down Days:

For larger outdoor events with extensive set up including canopies, stage, etc., set up and break down days will be assessed at 35% of the daily reservation fee per day or any part of one day. Dumpsters and portable toilets are exempt from the break down day charge if they are removed by 9am the following day.

Utility Hook Ups for De La Guerra Plaza, Mackenzie Park and Leadbetter Beach

Events:

For De La Guerra Plaza and Mackenzie Park, gas, water and electrical hook ups may be made available for large public events. The activation of these utilities can either be accomplished through a licensed general contractor (or a licensed plumbing and licensed electrical contractor), or the Parks and Recreation Department can facilitate the hook-up requests through the Public Works Department. If the former is chosen, the Public Works Department will charge fees to supervise and inspect the work before and after the activation and require that a permit be obtained from the Building and Safety Department. A \$100-\$500 deposit is required to cover the estimated usage of the utilities with the amount is based on the number of utility boxes activated. Additional information on the fees and how to obtain the permit will be provided.

If the latter is chosen, approval is dependent upon Public Works' ability to schedule the necessary personnel to complete the required work for the event within the given timeframe. Requests must be submitted a minimum of four weeks in advance of the event. The base cost to activate/deactivate the plumbing is \$638 for the first box, plus \$106 per additional box. The base cost to activate/deactivate the electricity is \$159 for the first box and plus \$106 per additional box. A deposit of up to \$1,000 is also required to cover the estimated usage of the utilities.

For Leadbetter Beach, only water and electrical hook ups are available and the activation of these utilities is handled by park monitors, along with the reading of the water and/or electrical meters prior to and after the usage. Water usage is charged at \$4 per unit of water and electricity usage is charged at \$2 per kilowatt hour. A deposit of up to \$500 is required to cover the estimated usage of the utilities.

Vehicles in Park or Beach Areas Related to Permitted Sporting or Public Events:

The use of vehicles in parks and beaches is strictly controlled and restricted to authorized uses only. Authorized passes will be limited to vehicles deemed essential to the operation of the permitted event, as determined by the Director or designated representative. This includes vehicles unloading or loading equipment, supplies or passengers, or other types of vehicles related to the event.

Unauthorized driving or parking of vehicles in park or beach areas related to permitted events will be cited and fined \$50 per vehicle. Unauthorized driving or parking may include vehicles without access permits or authorized vehicles, which do not comply with driving conditions as determined in the permit. Fines will be charged to the event and withheld from the security deposit. Excessive abuse of the vehicle policy by an event may affect future event permit consideration.

Discount for Multi-Week Sporting Event Use by For Profit Groups:

When for profit groups use reservable areas within parks or beaches for sporting events on a multiple week basis, they will receive a 10% discount as long they meet the following criteria:

1. Use is on a weekly basis and occurs more than 12 times per year.
2. Use is 2 or more hours at a time.

WATER RATES AND FEES

Chapter 14.08 of the Santa Barbara Municipal Code authorizes the City Council to set fees for water meters and water service;

Section 14.12.010 of the Santa Barbara Municipal Code authorizes the City Council to set the rate for City water for private fire services when the use of a meter is not required; and

The City does currently and wishes to continue to have in effect a water rate structure that reflects an adequate supply of water and promotes the efficient use of such water by its customers.

DEFINITIONS

Wherever used in this resolution the following quoted words shall have the meanings set forth below:

- A. "Account holder" means the person or entity responsible for payment for water service at a particular property, as shown in the City's water billing records.
- B. "Base allotment" means the average monthly consumption on record with the City for the most recent complete off-peak period, or such other level of consumption determined by the Director to represent the average monthly off-peak water usage by a particular customer. An off-peak period for any given customer shall be a period comprised of the service periods charged on bills dated January through June.
- C. "Director" means the Director of the Department of Public Works or his designated representative.
- D. "Hcf" means one hundred cubic feet.
- E. "Service" or "water service" means water provided by or through the water distribution facilities of the City.

1. WATER SERVICE RATES

The following provisions shall govern all fees related to water service for metered connections to the City water system:

- A. **MONTHLY SERVICE CHARGE.** A monthly service charge shall be collected for all connections, without regard to actual water use, if any, as follows:

<u>Size of Water Service Meter</u>	<u>Rate (\$/meter/month)</u>
5/8"	\$12.31
3/4"	\$18.50
1"	\$30.80
1 1/2"	\$61.58
2"	\$98.56
3"	\$197.10
4"	\$307.97
6"	\$615.94
8"	\$984.68
10"	\$1,416.66

Monthly service charges for connections located outside the City limits shall be 130% of the above charges.

B. **USER CLASSIFICATIONS.** For the purposes of assessing metered water charges provided for in Subsection C below, user classifications shall be as follows:

1. Residential Single Family Detached: Applicable to all meters serving one detached dwelling unit.
2. Multifamily 1-4 Units: Applicable to all meters serving two or more detached dwelling units and all meters serving 1, 2, 3, or 4 attached dwelling units.
3. Multifamily Over 4 Units: Applicable to all meters serving five or more dwelling units, any of which are attached.
4. Commercial: Applicable, without regard to meter size, to all accounts serving mercantile buildings, motels and other short term lodging establishments, office buildings, institutional buildings, schools, churches, and other commercial establishments.
5. Industrial: Applicable to all meters serving laundries (other than self-service laundries), manufacturing facilities, and other industrial facilities.
6. Irrigation-Potable: Applicable to meters substantially limited to outdoor water use and subclassified as provided in Subparagraph a. through d. below. All meters under this classification shall be subject to interruption upon declaration of a Stage Three Drought Condition. There shall be no connection between a meter served under this classification and any dwelling or commercial or industrial structure.

- a. Irrigation-Agriculture: Applicable only to Potable Irrigation meters that serve bona fide commercial agricultural enterprises, including nurseries. A bona fide commercial agricultural enterprise is one that grows and sells one or more type of agricultural or horticultural products, for the purpose of producing income from the sale of these products. The amount of water made available in each block of metered water usage under this sub-classification shall be based solely on the area that is planted and irrigated as part of the enterprise. As a condition of the right to receive Irrigation-Agriculture service, the Director may require an Account holder to submit to the Director any documentary or other evidence necessary to establish to a reasonable degree of certainty that the property served by the meter is being used to conduct a bona fide commercial agricultural enterprise as defined above. Such evidence may include tax returns, bills of sale, or similar documents.
 - b. Irrigation - Recreation: Applicable only to Potable Irrigation meters that serve areas used primarily for passive or active recreational purposes, including parks, playgrounds, golf courses, school yards, and publicly owned open spaces and landscaped areas. The amount of water made available in each block of metered water usage under this sub-classification shall be based solely on the number of acres of planted area served by the meter.
 - c. Irrigation-Commercial: Applicable to Potable Irrigation meters serving properties that are primarily commercial, industrial, or institutional in use.
 - d. Irrigation-Residential: Applicable to Potable Irrigation meters serving properties that are primarily residential in use or are zoned for residential use.
7. Recycled Water: Applicable to all meters providing recycled wastewater.
 8. Outside City Limits: Applicable to all meters serving properties that are outside the City Limits of the City of Santa Barbara.
- C. **METERED WATER CHARGE.** In addition to all other charges imposed by Chapter 14.08 of the Santa Barbara Municipal Code, including but not limited to the monthly service charges set forth in Subsection I.A. above, water use shall be charged according to the following block rates for those user classifications defined in Subsection B above. Usage shall be measured in units of 100 cubic feet (hcf).

Usage Quantities (Monthly, except as specified)	Rate (\$/hcf)
1. <u>Residential Single Family</u>	
First 4 hcf	2.93
Next 16 hcf	4.90
Over 20 hcf	5.16
2. <u>Multi-Family 1-4 Dwelling Units</u>	
First 4 hcf/unit	2.93
Next 8 hcf/unit	4.90
Over 12 hcf/unit	5.16
3. <u>Multi-Family Over 4 Dwelling Units</u>	
First 4 hcf/unit	2.93
Next 8 hcf/unit	4.90
Over 12 hcf/unit	5.16
4. <u>Commercial</u>	
Up to 100% of base allotment:	4.90
All other use:	5.16
5. <u>Industrial</u>	
Up to 100% of base allotment:	4.90
All other use:	5.16
6. <u>Irrigation - Potable:</u>	
Annualized allotments shall renew only once each year beginning with water use charged on the July bill, regardless of any change of account holder. Acreage allotments shall be based on irrigated acreage.	
a. <u>Irrigation - Agriculture</u>	
First 1080 hcf/acre/year	1.45
Next 240 hcf/acre/year	4.90
All other use	5.16

On July 1 of each year, the beginning first block allotment for each agricultural customer shall be augmented by the amount of any unused first block allotment for the prior fiscal year, provided however that: i) no such augmentation shall occur if the Public Works Director has determined that the amount of water in storage in Lake Cachuma was less than 100,000 acre-feet as of the end of the prior fiscal year, and ii) any such augmentation shall be limited such that the beginning first block allotment shall not exceed 200 percent of the regular first block allotment based on 1,080 hcf/acre/year.

b. Irrigation - Recreation

First 1,404 hcf/acre/year	2.31
Next 240 hcf/acre/year	4.90
All other use	5.16

Upon finding that there are adequate water resources available to allow such use, the Director may also authorize the sale of up to a total of 21,780 HCF (50 acre feet) per year at the first block rate for use in refilling the Andre Clark Bird Refuge.

c. Irrigation - Commercial

Up to 100% of base allotment:	4.90
All other use:	5.16

d. Irrigation - Residential

Each meter in this sub-classification shall be assigned, for the purposes of billing, to one or more “associated” residential meters on the property. Metered water shall be billed as if it were used through the associated residential meter(s) such that any allotments not used on an aggregate basis by the associated account(s) shall be available to the irrigation account. Alternatively, an account holder may elect to be charged on the basis of the following acreage allotment, in which case such election shall remain in effect for at least twelve months:

First 654 hcf/acre/year	4.90
All other use	5.16

7. Recycled Water

All hcf

1.85

8. Outside City Limits. Metered water charges for service to properties located outside the City limits shall be 130% of any corresponding in-City rate.

D. **FAILURE TO CONNECT TO RECYCLED WATER SYSTEM.** Where the Director has determined that use of recycled water is feasible at and on a particular property and has notified the account holder for the meter serving such property of this fact, and thereafter the user has failed to substitute recycled water use for potable water use, the charge for provision of potable water use shall be double the otherwise applicable charge for metered water.

E. **GRANTING OF ADJUSTMENTS TO EXTRAORDINARY WATER CHARGES.** Upon an account holder's application that is 1) received within 45 days of a relevant billing date, 2) submitted on a form provided by the Finance Director, and 3) supported by detailed written documentation, the Finance Director, or a designee of the Finance Director, shall have the authority to make adjustments to extraordinary water charges in the event of hidden leaks, undetected line breaks, or other circumstances that are demonstrated to be beyond the reasonable control of the account holder. Such adjustments shall be made in accordance with guidelines approved by the City Administrator's Office. However, such adjustments shall in no case result in a cost per Hcf that is less than the lowest unit rate for residential customers located within the City limits. The decision of the Finance Director, or said designee, regarding any such adjustment shall be final. Adjustments shall be allowed under this section only once per account, per account holder.

F. **MISCELLANEOUS SERVICES.** The following miscellaneous fees related to water service shall be charged and collected upon demand:

Service Initiation/Restoration Fee:	\$52
Meter Flow Test:	\$45
Damaged/Missing Locks:	\$20
Damaged/Missing Locking Brackets:	At cost
Fire Hydrant Flow test:	\$138
Returned Payment Fee:	\$27
Delinquency Fee: per account, per month, for any billing period in which a delinquent unpaid balance exists	\$5.00
Upgrade of existing fire hydrant to City standard where only the fire hydrant head needs replacement:	
Upgrade to standard residential hydrant:	\$1,470
Upgrade to standard commercial hydrant:	\$1,921

G. CHANGE OF ACCOUNT HOLDER UPON TERMINATION OF TENANCY. Upon termination of utility service by an account holder who is a tenant, the property owner, or agent thereof, shall automatically become the account holder, provided that the City has on file a written request from such property owner or agent authorizing such change.

H. MULTI-FAMILY RESIDENTIAL - SPECIAL OCCUPANCY BILLING. The Director may waive individual metering requirements for dwelling units in publicly owned housing developments having special occupancy characteristics as may be determined appropriate by the Director. Such waiver shall be accompanied by water use efficiency conditions determined to achieve the maximum feasible conservation at the site, including but not limited to City metering of individual portions of the project in a manner designed to highlight occurrences of unusually high water use. Such accounts shall be allotted 2 Hcf of water per dwelling unit at the first block rate for other Multi-Family Residential customers, with all other usage charged at the third block Multi-Family Residential rate.

2. NON-METERED PRIVATE FIRE SERVICES

Payable monthly, the rates for City water for private fire services when the use of a meter is not required pursuant to Section 14.12.010 of the Santa Barbara Municipal Code shall be as follows:

<u>Size of Service</u>	<u>Monthly Rate</u>
1"	\$ 2.36
1-1/2"	\$ 3.36
2"	\$ 4.80
4"	\$ 8.63
6"	\$13.43
8"	\$19.20
10"	\$26.86
12"	\$38.38

Upon a determination that unauthorized use of water through a fire service or other private main connection has occurred, the Director may assess a fee for each Hcf of such use at a rate equal to twice the rate for the first block allotment for Commercial customers.

3. WATER SERVICE CONNECTIONS

All determinations of the size and location of water service connections, water main connections, and meters shall be subject to the approval of the Director. The Director may waive the fee for a service connection or main connection to the recycled water

WATER AND SEWER BUY-IN FEES

Sections 14.08.050 and 14.48.010 of the Municipal Code authorize the establishment by resolution of fees to be paid for connections to the City water and sewer systems, respectively; and water and sewer buy-in fees are appropriately assessed on the basis of the flow capacity of the meter serving a given use.

The City Council, upon recommendation of the Water Commission, has determined the appropriate charges to be assessed for new connections to the City water and sewer systems for the purpose of buying into the existing assets of those systems.

1. BUY-IN RATES

Except as provided herein, the following water and sewer buy-in fees shall be collected prior to the Public Works Director's approval to: 1) make a new connection to the City water or sewer system, 2) to commence a discharge into the City sewer system from a newly permitted dwelling unit, or 3) increase the size of an existing water meter. Such buy-in fees shall be in addition to fees assessed under other resolutions for the labor, materials, equipment, and other City costs necessary to construct the actual connection to the water or sewer system. Buy-in fees specified herein shall be effective for fees paid July 1, 2009 or later. The Public Works Director shall be authorized to determine eligibility to pay Fiscal Year 2009 buy-in rates, in lieu of fees established herein, for projects that have achieved specific milestones in the development review process.

2. REGULATIONS REGARDING ASSESSMENT OF BUY-IN FEES

The following regulations shall apply to the assessment of water and sewer buy-in fees:

- A. The term "multi-family residential dwelling unit" as used herein shall mean any attached dwelling unit, including attached apartments, condominiums, and secondary dwelling units.
- B. Water and sewer buy-in fees shall not apply to:
 1. Connections to serve facilities owned and operated by City programs funded by the General Fund; and
 2. Water system connections for public fire hydrants, private fire hydrants, and private fire lines.
- C. A sewer buy-in fee shall not apply to a water meter that is classified as "Irrigation" in the City billing system.
- D. Water and sewer buy-in fees shall not apply to a connection to the City's recycled water distribution system.
- E. In the case of an application for a water or sewer connection to serve a parcel where connections already exist, credit shall be given for existing connections such that the water and sewer buy-in fees shall be based on the net increase in meter capacity for non-residential meters, or in the case of residential meters, the net increase in number of dwelling units. There shall be no buy-in fee assessed for the installation of a meter to serve a legally existing residential dwelling unit that is already served by another City water meter

when such installation is done for the purpose of providing separate metering to such dwelling unit.

- F. A reduction in meter size may be approved by the Public Works Director in accordance with applicable resolutions; however, there shall be no refund of buy-in fees upon such reduction.
- G. In a case where the buy-in fee cannot be reasonably determined using the meter capacity method contained herein, a water and/or sewer buy-in fee may be determined by estimating the net new usage of water, converting such usage to an equivalent number of 5/8" meters, and multiplying said equivalent number times the buy-in fee for a 5/8" meter.

The slip assignment shall then be offered to the applicant ranked next on the Lottery List.

C. VISITING OR TRANSIENT VESSEL FEES

Visiting berths, slips and moorings are intended to accommodate boats en route to and from their home port. Except as specially designated in Section 5 below, or expressly allowed by the Waterfront Director, visitor berths are assigned on a first-come, first-served basis upon the vessel's arrival at the harbor.

1. The base visiting rate for vessels other than those actively and solely engaged in commercial fishing will be ninety cents (\$.90) per linear overall foot per day for the first fourteen (14) cumulative days in the Harbor.
2. Vessels described in C.1 that remain in the Harbor for a period of more than fourteen (14) cumulative days will be required to pay two times the base rate. A new fourteen (14) day cumulative period at the base rate shall start to run if the vessel returns after being absent from the harbor for five (5) or more consecutive days. The Harbormaster may, however, waive such increase in the rate for a period in excess of the fourteen (14) cumulative day period in the event of prolonged storms, natural disaster, or on satisfactory proof of a need for additional time to effect emergency repairs.
3. The base visiting rate for commercial fishing vessels actively and solely engaged in commercial fishing shall be seventy cents (\$.70) per day. No days out will be required to remain at the base rate when proof in advance of slip assignment in the form of two California Department of Fish and Game commercial fish landing receipts every two (2) weeks is shown. If such proof

is not provided, the vessel will be considered not actively fishing and will be subject to fees described in C.1 and C.2.

4. The maximum allowable stay for visiting boats other than actively fishing commercial vessels is twenty-eight (28) cumulative days. A vessel must vacate the Harbor for five (5) or more consecutive days before again being eligible for visitor boat status. Any person violating this provision, without express permission of the Waterfront Director or his designee, shall pay a penalty of:
 - a. \$75 per day for days exceeding the maximum allowable stay, for a vessel whose overall length is 35 feet or less.

 - iii. Individual or late entries will not be accepted for reservation, but will be considered on a first-come, first-served basis like all other visitor boats.
6. For the purpose of this subsection, a day shall be deemed to be a twenty-four (24) hour period commencing at twelve noon. All fees are due and payable in advance. No portion of the transient dock fees is refundable. Payment of visiting fees entitles a visiting vessel to utilize a slip or mooring for the paid-up period.

D. CHARGES FOR DELINQUENT PAYMENT

3. A charge equal to double the bill incurred plus ten dollars (\$10.00) shall be added to dockage and/or wharfage fees if any person leaves a slip or mooring, unless forced to do so by weather or fire, without first paying the fees due (unless such vessel is upon the credit dockage list) except by permission of the Waterfront Director.

Under no circumstances shall vessel tie-ups under this section be allowed to conflict with established wharf license holders conducting business from the passenger loading ramp.
2. Written requests for any Wharf use including the tie-up of vessels shall be made in writing to the Waterfront Director ten (10) working days prior to the proposed use. The Waterfront Director must approve all requests for Wharf uses in advance. All fees must be paid 24 hours in advance of any Wharf use.
3. The location for the mooring of vessels shall be at the sole discretion of the Waterfront Director. The Waterfront director may require relocation or departure of a moored vessel when wind or water conditions exist or are anticipated which would endanger the Wharf, the vessel or personnel.
4. Tie-up of vessels is allowed only for the time required to transfer the passengers.
5. Dinghies are not allowed to tie-up at the passenger-loading ramp.
6. Permission to tie-up is revocable at any time.
