

# CITY OF SANTA BARBARA

## COUNCIL AGENDA REPORT

**AGENDA DATE:** July 27, 2010

**TO:** Mayor and Councilmembers

**FROM:** Treasury Division, Finance Department

**SUBJECT:** June 30, 2010, Investment Report And June 30, 2010, Fiscal Agent Report

**RECOMMENDATION:** That Council:

- A. Accept the June 30, 2010, Investment Report; and
- B. Accept the June 30, 2010, Fiscal Agent Report.

### DISCUSSION:

On a quarterly basis, staff submits a comprehensive report on the City's portfolio and related activity pursuant to the City's Annual Statement of Investment Policy. The current report covers the investment activity for April through June 2010.

The economy experienced a slowdown this quarter with the slowing of retail sales, lower industrial production, and continued high unemployment levels. All financial markets lost the momentum gained over the past 12 months. The Dow Jones Industrial Average (DJIA) index, which measures stocks from 30 industrial "blue-chip" companies, was down 9.97 percent from the previous quarter; S&P 500, composed of 500 "large-cap" companies across various sectors, was down 11.42 percent; and NASDAQ, which largely measures technology stocks, was down 12.04 percent.

The Consumer Price Index (CPI) is a general measure of inflation showing the average change over time in prices of goods and services purchased by households. The seasonally adjusted CPI for all items declined 0.1 percent due to declines in the energy index items. Core prices, excluding food and energy, were higher by 0.9 percent in June. Economists agree that there is a low risk of the U.S. entering an inflationary cycle in the near future given continued market volatility, high unemployment levels, and the slow economic recovery.

In continued efforts to spur growth U.S. economy, and without the immediate threat of inflation, the Federal Reserve Bank's Open Market Committee held the federal funds rate unchanged at a target range of 0-1/4 percent. Rates are expected to continue to remain low for an extended period.

Treasury yields were lower at the end of the quarter as shown in the table to the right. Investors continued to demand the safety of U.S. Treasuries, driving prices higher and yields lower. This is attributed to the European debt crisis, a “cooling” of China’s economic growth, and concerns over a possible double-dip in the U.S. economy surfacing during the quarter. Longer term yields on Treasury notes were lower, ranging from a decline of 8 basis points on the 1-year Treasury note to a decline of 89 basis points on the 10-year Treasury note over the quarter. Only the 3-month Treasury yield was slightly higher and by only 2 basis points at quarter end.

U.S. Treasury Market

### Investment Activity

As shown in the table below, the City invested \$20 million during the quarter. The purchases consisted of \$14 million in “AAA” rated Federal Agency callable securities and \$6 million in “AAA” rated Federal Agency bullets (non-callable securities). During

Airport Promissory Note - Partial Redemption	1,089,361	07/14/09	06/30/29	-	-	7.000%
	5,089,361					

the quarter, \$12 million of “AAA” rated Federal Agency securities were called and \$4 million securities matured. Additionally, at fiscal year end, the Santa Barbara Airport made a regularly scheduled principal repayment of \$89,361 and an additional repayment of \$1 million. On June 30, 2010, the outstanding balance on the 20-year Airport Promissory Note held in the City’s investment portfolio was \$6,124,230.

The weighted average yield to maturity measures the average yield for securities with varying interest rates to help provide a measure of the future rate of return on the investment portfolio. The weighted average yield to maturity on the quarter’s purchases totaled 2.301 percent, compared to 3.849 percent on the quarter’s called and matured investments, reflecting the low interest rate environment.

The average rate at which the City earned interest at the Local Agency Investment Fund (LAIF), the State’s managed investment pool, was unchanged at 0.56 percent for the quarter ended June 30, 2010. Staff expects to reinvest a portion of the City’s LAIF balances in short-term securities during the next quarter.

### Summary of Cash and Investments

The book rate of return, or portfolio yield, measures the percent return of actual interest earnings generated from the portfolio. During the quarter, the City’s book rate of return decreased by 21.5 basis points from 2.538 percent at March 31, 2010 to 2.323 percent at June 30, 2010. The book rate of return continues to decline through the attrition of higher-yielding securities, and reinvestment at considerably lower market rates. The portfolio’s average days to maturity decreased by 77 days from 919 to 842 days which includes the 20-year Airport promissory note authorized by Council in July 2009. The portfolio’s average days to maturity excluding the Airport note is 608 days, reflecting reinvestment of maturities and calls during the quarter in the one to five year range for regular day-to-day investment activities in accordance with the City’s Annual Statement of Investment Policy.

Mo. Ended	Yield	Days to Maturity
03/31/2010	2.538%	919
04/30/2010	2.385%	875
05/31/2010	2.459%	911
06/30/2010	2.323%	842

### Credit Quality on Corporate Notes

Over the quarter ended June 30, 2010, there were no credit quality changes to the two corporate issuers of the medium-term notes held in the portfolio (i.e., General Electric Capital Corp and Wells Fargo & Company). All ratings remain within the City’s Investment Policy guidelines of “A” or better.

### Portfolio Market Gains/Losses

As shown on the Investment Yields on the next page, the City’s portfolio continues to significantly outperform the three benchmark measures (the 90 day T-Bill, 2 year T-Note and LAIF). The portfolio also reflects unrealized market gains during the quarter due to lower market yields compared to the yields on securities held in the portfolio. At June 30, 2010, the portfolio had an unrealized market gain of \$1.712 million.

On a quarterly basis, staff reports the five securities with the largest percentage of unrealized losses as shown in the table below. Only one security was trading below purchase price at the end of the quarter. Note, however, since all securities in the portfolio are held to maturity, no market loss will be realized.

Issuer	Face Amount	Maturity	\$ Mkt Change	% Mkt Change
FEDERAL HOME LOAN BANK	\$2,000,000	06/30/2014	-\$1,380	-0.07%

**Additional Reporting Requirements**

The following confirmations are made pursuant to California Code Sections 53600 et seq.: (1) the City's portfolio as of June 30, 2010 is in compliance with the City's Statement of Investment Policy; and (2) there are sufficient funds available to meet the City's expenditure requirements for the next six months.

**Fiscal Agent Investments**

In addition to reporting requirements for public agency portfolios, a description of any of the agency's investments under the management of contracted parties is also required on a quarterly basis. Attachment 2 includes bond funds and the police and fire service retirement fund as of June 30, 2010.
