

# CITY OF SANTA BARBARA

## COUNCIL AGENDA REPORT

**AGENDA DATE:** April 9, 2013

**TO:** Mayor and Councilmembers

**FROM:** Engineering Division, Public Works Department

**SUBJECT:** Measure A Five-Year Local Program Of Projects For Fiscal Years 2014 - 2018

### RECOMMENDATION:

That Council adopt, by reading of title only, A Resolution of the Council of the City of Santa Barbara Adopting the Measure A Five-Year Local Program of Projects for Fiscal Years 2014 - 2018.

### DISCUSSION:

#### BACKGROUND

In November 2008, Santa Barbara County voters overwhelmingly approved Measure A with 79 percent support. Measure A is a transportation sales tax measure estimated to provide approximately \$1 billion of local sales tax revenues for transportation projects in Santa Barbara County over the next 30 years. Measure A is funded through a continuation of the local 1/2 percent sales tax that was originally authorized by Measure D, which expired on March 31, 2010. The Measure A ordinance requires the City to submit a Five-Year Local Program of Projects to the Santa Barbara County Association of Governments (SBCAG).

A key component of Measure A is the plan to relieve traffic congestion and improve safety on Highway 101 by providing \$140 million, or 13.4 percent, in matching funds to widen the highway south of Santa Barbara from four to six lanes.

Under Measure D, the City contributed funds to support the Santa Barbara Metropolitan Transit District (MTD). Under Measure A, MTD now receives Measure A funds directly; however, the City will continue to provide funding support to the Easy Lift and Electric Shuttle programs.

## MEASURE A INVESTMENT PLAN

The Measure A Investment Plan (Plan) will provide \$455 million, or 43.3 percent, to both the Santa Barbara North County and the South Coast for high priority transportation projects and programs to address the current and future needs of local communities. The local revenues will be supplemented by an estimated \$522 million in federal and state gas taxes, as well as other sources.

The Plan provides funding for local street improvements such as pavement maintenance and synchronized traffic signals, increased senior and disabled accessibility to public transit, building safer walking and bike routes to schools, and increased opportunities for carpool and vanpool programs.

SBCAG has estimated that the City will receive approximately \$3.41 million in Measure A revenues for Fiscal Year 2014. The SBCAG estimate for Measure A City revenues for Fiscal Year 2013 was approximately \$3.02 million. Under Measure A, local agencies choose how to spend their share of funds after seeking public input and annually adopting a Five-Year Program of Projects. Measure A contains funds for Local Street and Transportation Improvements (capital projects and maintenance/operations), and Alternative Transportation (pedestrian/bicycle improvements, Safe Routes to School, and transit assistance).

It is a Measure A Ordinance requirement for local agencies to spend a minimum percentage of their Local Street and Transportation Improvement funds on eligible alternative transportation projects. The minimum percentage for the City is 10 percent. This requirement must be met by the fifth year of the program, and every fifth year thereafter. The City has already met this requirement for the first five years. The proposed Fiscal Year 2014 Program of Projects includes 40 percent of Alternative Transportation expenditures.

## LOCAL PROGRAM OF PROJECTS

With Council's approval of the recommended Resolution, this report will satisfy the Measure A requirement that the local agency hold an annual public hearing on its Program of Projects prior to submittal and adoption by SBCAG.

As part of the two-year Fiscal Year 2014 – 2015 Streets Capital Program budget review process, staff held two public work sessions. One was with the Transportation and Circulation Committee on November 8, 2012, regarding the proposed Fiscal Year 2014 Streets Capital Improvement Program budget. The second was with the Planning Commission on March 7, 2013, regarding the draft City Capital Improvement Program for Fiscal Years 2014 to 2019. Overall, positive comments were received. The majority of the comments for the Streets Capital Improvement Program reiterated that maintenance of existing public right of way infrastructure and safety should be the highest priorities for that Program.

The proposed Measure A Five-Year Local Program of Projects is separated into two categories: Local Street and Transportation Improvements, and Alternative Transportation Expenditures. See Attachment for the Measure A Proposed City of Santa Barbara Program of Projects by Category for Fiscal Years 2014 – 2018.

The City must annually adopt a Resolution and submit a revised Local Program of Projects to SBCAG in accordance with the Measure A local allocation rules. The proposed City Measure A expenditure plan is reflected in the proposed City Streets Fund budget for Fiscal Year 2014.
